

COMPANY OVERVIEW

D7 Pneumatics LLC is a leading provider specializing in the installation and maintenance of critical piping systems, including ASME code-compliant systems, underground fire mains and hydrant systems, overhead fire sprinkler systems, pneumatic piping systems for compressors, and hydraulic piping systems. As part of the D7 Group, which includes the US Mechanical, Fabrication, and Civil Division, we offer expertise in heavy civil earthwork, concrete, carpentry, equipment installations, fabrication, and maintenance services across industrial and commercial settings. Renowned for our proactive approach and commitment to reliability, we set a high industry standard by ensuring precision and quality in every project. Our versatile and dedicated team consistently meets deadlines without compromise, delivering seamless results across a range of industries.

D7 Pneumatics LLC brings extensive experience and specialized capabilities to the government contracting space, offering a full spectrum of services that are critical to industrial and infrastructure projects. With expertise in building pressure vessels, power boilers, and steam piping, as well as performing complex repairs and alterations, we are equipped to meet the highest industry standards. Our state-of-the-art facilities support a wide range of industrial fabrication processes, with certified welding inspectors (CWI) overseeing every operation to ensure the utmost precision. Our laser lineup technology guarantees the most accurate equipment installations, while our maintenance division is qualified to handle capital projects of any scale, from inception to completion. D7 Pneumatics' commitment to safety, quality, and reliability makes us a trusted partner in delivering successful outcomes across diverse sectors.

CORE COMPETENCIES

- Heavy Civil Earthworks, Excavation & Site Work, Concrete, Carpentry
- ASME Pressure Vessels, Pressure Piping & Boilers, Repairs & Fabrication
- Fire Mains, Dry Vales, Overhead Sprinkler Systems
- Structural Fabrication, Welding, Steel Erection, Crane Services
- Industrial Equipment Removal, Install with Laser Line-up & Field Maintenance & Repairs
- Industrial Equipment Fabrication & Welding
- Pneumatic & Hydraulic Pipe Install & Welding
- Compressor & Pneumatic Equipment Install & Maintenance

DIFFERENTIATORS

D7 Pneumatics LLC distinguishes itself through an unwavering commitment to safety, efficiency, and on-time delivery, setting the standard for excellence in the piping industry. Our adherence to higher industry safety standards is evident across all of our facilities and every awarded job site, ensuring a safe working environment for both our team and clients. With a rapidly expanding fleet of 15 trucks and a growing workforce of over 150 skilled professionals, we are equipped to tackle projects of any size and complexity. Backed by more than 25 years of industry experience, D7 Pneumatics consistently delivers seamless, high-quality results, prioritizing safety, efficiency, and precision in every project without delays.
